

Alternatives to Routes 904 & 905

Unfortunately due to the continued low ridership and increased costs over the past several years, Waukesha County Routes 904 & 905 will no longer operate after Friday, September 26, 2025. The following are suggested alternatives available vs. commuting alone. Please consider:

1. Waukesha Metro Route 1

Waukesha Metro Route 1 operates every 23 minutes from the Transit Center in downtown Waukesha with stops at Goerkes Corners and Brookfield Square. Route 1 connects with the Milwaukee County Transit System Connect 1 BRT line with service on Wisconsin Ave in downtown Milwaukee. Go to : waukeshametro.org or ridemcts.com for more information.

2. Wisconsin Department of Transportation (WisDOT) Rideshare Program

The WisDOT Rideshare Program matches commuters in the same geographic area that have similar destinations and travel patterns. For More information please go to: <https://wisconsin.gov/pages/travel/road/rideshare/default.aspx>

3. Commute with Enterprise Rideshare Program

Enterprise has a rideshare program as well. The program lists Milwaukee as an area that has its program. More information can be found at: <https://www.commutewithenterprise.com/>

4. Group Carpools

Consider forming a carpool with your fellow Route 904/905 passengers. It's a way of sharing costs and alleviating having to make the daily commute yourself.

5. Commutewise

Commutewise is an information hub for commuters that allows users to explore transportation options to work that fit your needs. Go to commutewise.org for more information.

We thank you for your loyal ridership on Route 904/905.
